

Custom Worktable and Storage Workbench Enquiry

Tianze Stainless

Tell us what you need. We review the design with our manufacturing partners in China and quote each project after the requirements are confirmed.

Complete the fields you know. If a specification is undecided, write "please advise". Attach a drawing or reference photo when available.

Choose a reference model

Catalogue dimensions are references. Final dimensions and configuration are agreed for your project.

Reference	Configuration	Reference W × D × H in mm
TZ-WT001	Fixed worktable	1000 × 600 × 800 or 1200 × 600 × 800
TZ-WT002	Folding worktable	1000 × 600 × 800 or 1200 × 600 × 800
TZ-WT003	Worktable with undershelf	1200 × 600 × 800 or 1500 × 600 × 800
TZ-WTC001	Enclosed storage workbench	1500 × 500 × 900
TZ-WTC002	Cabinet workbench	1500 × 500 × 900
TZ-WTC003	Wide storage workbench	2000 × 500 × 900

Your project

Name and email

Company and destination city or country

Reference model or your own design and application

Requested W × D × H and quantity

Please state units and quantity for each size. Add another sheet for multiple items.

Specify the custom requirements

Use these fields to describe your requirements. We confirm feasibility and the final specification before issuing the project quotation.

Material grade and component coverage

State the preferred grade for the top, frame, shelves and cabinet panels, or ask us to advise.

Preferred thickness and required load

Describe the weight, how it is distributed and the intended use. Load capacity requires design confirmation.

Configuration and finish

Shelves, doors, drawers, splashback, folding parts, feet or castors, hardware and surface finish.

Requested delivery date and packing

Include destination, packing or labelling needs and any preferred shipping terms.

Drawing or photo references and other requirements

List file names and any dimensions, access restrictions or installation requirements.

What we confirm in the quotation

We review the drawing, dimensions, material coverage, thickness, configuration and quantity with you. We then confirm the price, any minimum quantity, production lead time, packing, payment terms and shipping scope in writing. These are assessed for each project.

Production proceeds against the approved specification and written order terms.
